

DIVISION OF FINANCE AND THE ECONOMY
INVESTMENT AND PUBLIC PRIVATE PARTNERSHIP UNIT

CAREER OPPORTUNITY

SENIOR FINANCIAL ANALYST

JOB DESCRIPTION

The Senior Financial Analyst will be required to provide highly specialized technical and operational support to the Investment and Public Private Partnership (IP3) Unit. The Analysts will be responsible for providing financial and economic analysis required to develop, implement and evaluate PPP proposals and projects, as well as monitor and advise on fiscal obligations and risks on behalf of the Division of Finance and the Economy.

DUTIES AND RESPONSIBILITIES

- Provide financial and economic analysis on the financial structuring of projects and explicit and implicit financial costs of these projects to government;
- Advise line divisions and other government entities on the feasibility studies required in order to demonstrate project viability;
- Advise on the appropriate financial structure for these projects based on a knowledge of the market's ability to provide finance and bear risk;
- Ensure that the Assembly's explicit and implicit fiscal obligations and risks are determined in the feasibility study stage and that these are communicated to the Division of Finance and managed appropriately;
- Monitor the Assembly's fiscal commitments and fiscal risk across the entire portfolio;
- Analyze all financial models, both in the feasibility studies and in proposals submitted as part of the competitive bidding process to ensure that the projects are affordable, financially sound and sustainable with appropriate risk allocation;
- Contribute to the development of a database of relevant legislative and regulatory material, global best practice and development of standardized contractual provisions and security documents;
- Assess and evaluate the regulatory risks for each project, and recommend the best course of action; and
- Recommend, brief and manage external financial advisors as necessary.

QUALIFICATIONS AND EXPERIENCE

- A post graduate qualification in finance;
- A minimum of three (3) years of successful, verifiable and relevant experience in a project finance environment;
- Solid project finance experience on a number of projects in a number of sectors from a private sector financing perspective;
- Must be comfortable with developing and analyzing complex financial models for infrastructure projects capable of sensitivity analysis;
- Must be exposed to economic cost benefit analysis of infrastructure projects; and
- Experienced in communicating the project risks to various stakeholders.

Application Deadline: APRIL 20TH 2018

Interested persons should submit applications including Curriculum Vitae and two references to
